## Overview

Mt. Manaslu is the eight highest mountain in the world standing at 8163 m above sea level and located in the ridges of Mansiri Himal situated in Gorkha district of Nepal. Regarded as the mountain of spirit, Mt. Manaslu is worshipped as a goddess by the local people. Manaslu lies about 64 km east from Annapurna. The first successful ascent to the summit was done by two mountaineers Toshio Imanishi and Gyalzen Norbu.

There are at least six climbing routes to Manaslu's summit in present and because of the few technical sections and diverse surroundings, the expedition to Manaslu will be an unforgettable experience. It is an excellent choice if you want to climb an easily accessible eight-thousand-mountain. The altitude is significant but not as terrifying as Kanchenjunga and Everest. The success rate of reaching the summit is really high taking into account the number of climbing groups who have been successful.

The first ascent is technical from the base camp of Manaslu at a height of 4700 m. Manaslu offers the possibility to be scaled from every direction until you reach the summit, that is why there are six climbing routes for Manaslu. Among the six routes, the route starting from the south ridge is the hardest while the northeast route is the most common and easy one. The descent could be slightly different because this way the climbers can explore more of the region surrounding the mountain. Diverse routes help keep the curiosity and spirit of the team high. While ascending the expedition team passes through Khursani bari, Jagat or Salleri, Dyang and Namrung whereas the route while descending leads through Ghap and Machhakhola.

To ensure safety along with providing the highest quality service in the high altitude, Lama Adventures offers experienced and trained climbing guides who make sure you reach the summit maintaining your physical fitness all along the way. No compromises when it comes to your well-being, so our itinerary is flexible according to your needs and also for some unforeseen circumstances.
